### ISE Background

ISE, which pioneered electronic options trading in the US, is the largest US equity options exchange.

ISE is the only fully-electronic US options exchange, the first registered securities exchange approved by the Securities and Exchange Commission since 1973, and the first and only electronic options exchange in the global marketplace that has successfully integrated the intrinsic efficiencies of electronic trading with auction market principles. ISE lists 551 options classes, whose aggregate volume represents more than 90% of the industry’s total equity options volume. For more information about ISE, its products and its technology, visit [www.iseoptions.com](http://www.iseoptions.com).
