  Group, will trade in bin 8 on a February expiration cycle with position and exercise limits of
  75,000 contracts.
- Options on Class A shares of Apollo Group Inc. (APOL), which were allocated to Citadel Derivatives Group, will trade in bin 8 on a February expiration cycle with position and exercise limits of 75,000 contracts.
- Options on Manhattan Associates Inc. (MANH), which were allocated to Knight Financial Products, will trade in bin 1 on a January expiration cycle with position and exercise limits of 60,000 contracts.
- Options on Reliant Resources Inc. (RRI), which were allocated to Knight Financial Products, will trade in bin 1 on a February expiration cycle with position and exercise limits of 75,000 contracts.

## **ISE Background**

The International Securities Exchange, the world's largest equity options exchange, was founded on the principle that technology fosters and infuses new efficiencies and operational innovations into securities trading. After developing an innovative market structure that integrated auction market principles into an advanced screen-based trading system, ISE launched the first fully electronic US options exchange in May 2000. ISE continually enhances its trading systems to provide investors and the trading community with the most efficient, least expensive order executions possible.
